SUMMARY

Final-year B.Tech CSE (AI) student at Babu Banarasi Das University, Lucknow (2023–2027), with hands-on experience shipping production-grade full-stack and AI-powered applications end-to-end. Solo-built and deployed an LLM-powered code analysis tool at IBM Bob Dev Day 2026 in under 48 hours. Currently interning with IBM SkillsBuild × AICTE on Data Analytics with AI. Comfortable across React, Node.js, FastAPI, Flask, Groq/Gemini APIs, Firebase, Scikit-learn, and NLP pipelines, with a 1st-place hackathon win.

EXPERIENCE

Data Analytics with AI Intern — AICTE × IBM SkillsBuild

Aug 2026 – Present · Remote

- Selected for the 6-week Virtual IBM SkillsBuild Data Analytics with AI Internship 2026, delivered in collaboration with AICTE and BharatCares®.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript, HTML, CSS, SQL

AI & ML: Prompt Engineering, Groq API (Llama 3.3 70B), Gemini API, RAG, LangChain, Scikit-learn, TensorFlow, Pandas, NumPy, NLP (TF-IDF, tokenization, transformer basics)

Frontend: React.js, Tailwind CSS, Recharts, Leaflet, Streamlit, Responsive Design

Backend / APIs: Node.js, FastAPI, Flask, Express.js, REST APIs, Vercel Serverless Functions

Databases: Firebase Firestore, MongoDB, PostgreSQL, MySQL, SQLite

Cloud & DevOps: Git, GitHub, Vercel (CI/CD), Render, AWS, Oracle OCI, Streamlit Cloud

CS Fundamentals: OOP · System Design · Modular Architecture

PROJECTS

AI Code Explainer — IBM Bob Dev Day Hackathon 2026 · Solo GitHub · Live

- Engineered 5 AI modes (Explain, Comment, Summarize, Optimize, Debug) via structured prompt engineering on Llama 3.3 70B; supports 12 languages with auto-detection — reduced manual code review time by ~70%.
- Built custom language-aware chunking algorithm splitting codebases by function/class boundaries — improved analysis accuracy by 60% over naive prompting; shipped solo end-to-end in under 48 hours.

React · Flask · Groq API (Llama 3.3 70B) · Prompt Engineering · Vercel · Render

HRVerse — AI-Powered Internal HR Chatbot GitHub · Live

- Iterated through 3 model versions — raw substring matching (39.1%) → NLP preprocessing (44.2%) → ML classifier — achieving 93.6% intent classification accuracy on 156 unseen test questions across 19 intents.
- Built NLP pipeline covering 6+ HR query categories with typo tolerance, fuzzy matching, and ~2ms avg response latency; voice input + read-aloud output, responsive light/dark UI across mobile and desktop.
- Modular architecture with clean separation of NLP, ML, API, and UI layers — designed for drop-in LLM upgrade without refactoring.

Python · FastAPI · NLP · ML Classifier (Scikit-learn) · HTML/CSS/JS · Render

CampusConnect — Smart Campus Utility Platform — Hackathon, BBDU GitHub · Live

- Architected serverless backend with 7 Node.js Vercel Functions; integrated Gemini API for 3 AI features — semantic lost-item matching (~80% reduction in manual search effort), auto-categorization, and notes summarization.
- Firebase Firestore for real-time data persistence + Google OAuth; zero-config Vercel CI/CD — owned end-to-end from UI to production.

React · Node.js · Firebase Firestore · Gemini API · Vercel Serverless Functions · CI/CD

SMS Spam Classifier — ML Web App Live

- Built NLP pipeline (TF-IDF vectorization) to classify SMS as spam/ham; trained multiple scikit-learn classifiers and deployed best-performing model as an interactive Streamlit app.

Python · Scikit-learn · NLP (TF-IDF) · Streamlit

EDUCATION

Babu Banarasi Das University, Lucknow 2023 – 2027

B.Tech – Computer Science Engineering (Artificial Intelligence) · CGPA: 6.2

City Montessori School, Lucknow 2020 – 2022

Intermediate (ISC – Class XII): 85% | High School (ICSE – Class X): 83%

ACHIEVEMENTS & CERTIFICATIONS

Hackathons & Competitions

- INNVEDX Hackathon — 1st Place, BBDU via Unstop; built and deployed the Vedic Financial Compute Engine under time pressure — ranked 1st among all competing teams.

Internships & Training

- Infosys Springboard — Pragati: Path to Future (Cohort 9): Completed a competitive 12-week women's AI & Data Science program covering supervised/unsupervised learning, NLP, deep learning fundamentals, model evaluation, and cloud computing; built hands-on projects throughout the program.
- Microsoft AI Skills Fest 2026 · IBM Dev Day: Bob Edition — Certificate of Participation (May 2026) · Outskill Gen AI Engineering Mastermind (Completion) · Yuva AI for All — TCS & NASSCOM Foundation
